CHAIRMAN REPORT

I want to thank all who contributed to the ACA-PAC in 2021. After taking a break on active fundraising in 2020, due to concerns stemming from the COVID-19 crisis, your support in 2021 truly helped us re-build the ACA-PAC.

In 2021 we presented a few fundraising challenges to the ACA membership and people really stepped up to those challenges! However, we have a way to go before we can say we are “back to normal.” This is why I am asking you to take a look at what you can do to help us in 2022.

With the 2022 Mid-Year elections coming up it is critical for us to be in the game, playing offense, not defense. The outcome of the elections could easily impact the Chiropractic profession and our practices in dramatic ways. We must emerge from the elections with chiropractic supporters in key positions of power and influence on both sides of the aisle.

We were able to contribute \$135,500 to 44 pro-chiropractic candidates in 2021. It is critical to have candidates in Congress who know and understand the benefits of Chiropractic physicians.

As you know, the ACA is focused on advocacy efforts that focus on vital issues important to our practices and patients, like The Chiropractic Medicare Coverage Modernization Act (H.R. 2654). It would allow Medicare beneficiaries access to the chiropractic profession’s broad based, non-drug approach to pain management, which includes manual manipulation of the spine and extremities, evaluation and management services, diagnostic imaging and utilization of other non-drug approaches that have become an important strategy in national efforts to stem the epidemic of prescription opioid overuse and abuse.

Thank you again for your contribution in 2021. I hope you will continue your support in 2022, and even join me at one of the Chairman’s Club levels. While your participation is completely voluntary, you know how critical it is for us to continue to build a pro-chiropractic Congress – which benefits our practices and patients.

Dr. Lew Squires
ACA-PAC Chairman

Healthcare PAC COMPARISON

2021 PAC Receipts

Many of the organizations listed have differing views on some of the issues that are important to us in chiropractic medicine. It is vital that we are able to amplify our voices among the other healthcare provider groups in the public policy arena -- to advocate for our practices and our patient's access to broad-based, non-drug approaches to pain management.
