

# H.R. 1610 / S. 799

## Support Medicare Patient Access to Effective, Safe, Affordable Care

America's seniors need full access to chiropractic care.

The Chiropractic Medicare Coverage Modernization Act, (H.R. 1610/S.799) is bipartisan legislation which will provide patient access to all Medicare-covered benefits allowable under a chiropractor's state licensure. The bill does not add any new services to Medicare, which serves more than 55 million Americans.

The proposed legislative change to Medicare will remove artificial barriers that prevent Medicare patients from benefiting from the full range of safe, clinically effective treatments offered by doctors of chiropractic, and allow patients to access this widely recommended and cost-efficient care.
