

ACA-PAC ANNUAL REPORT

2022

CHAIRMAN REPORT

I want to thank all who contributed to the ACA-PAC in 2022. We had a record-breaking year in participation from our ACA membership!

Through our PAC we have been able to not only strengthen our relationships with some of our key legislative champions. More importantly we were able to help them get re-elected to Congress to keep up the fight for us. This is why I am asking you to take a look at what you can do to help us in 2023.

Coming off of the 2022 Mid-Year elections it is critical for us to rebuild our PAC funds. The outcome of elections does impact the Chiropractic profession and our practices in dramatic ways. We need chiropractic supporters in key positions of power and influence on both sides of the aisle.

We were able to contribute \$134,000 to 46 pro-chiropractic candidates in 2022. It is critical to have candidates in Congress who know and understand the benefits of Chiropractic physicians.

One of our major legislative focuses has been on the passage of The Chiropractic Medicare Coverage Modernization Act. This would allow Medicare beneficiaries access to the chiropractic profession's broad based, non-drug approach to pain management, which includes manual manipulation of the spine and extremities, evaluation and management services, diagnostic imaging and utilization of other non-drug approaches that have become an important strategy in national efforts to stem the epidemic of prescription opioid overuse and abuse.

Thank you again for your contribution in 2022. I hope you will continue your support in 2023, and even join me at one of the Capitol Club levels. While your participation is completely voluntary, you know how critical it is for us to continue to build a pro-chiropractic Congress – which benefits our practices and patients.

Dr. Lew Squires
ACA-PAC Chairman

Healthcare PAC COMPARISON

2022 PAC Receipts

Many of the organizations listed have differing views on some of the issues that are important to us in chiropractic medicine. It is vital that we are able to amplify our voices among the other healthcare provider groups in the public policy arena -- to advocate for our practices and our patient's access to broad-based, non-drug approaches to pain management.
